Subject: LLA16-01451 Revisions Required

Mike,

I have completed my first review, and the below revisions are required for LLA16-01451.

1. DEMOLITION REQUIRED; the structures on the north lot must be demolished prior to recording, and an updated survey document reflecting this will be required. I don't show that a demolition permit has been applied for yet.
2. UPDATED TITLE; with the submittal of item #1, please submit a title current within 30 days, as the submitted title has already expired.

Thank you,
